

**South Carolina Department of Health and Human Services  
 Single Preferred Drug List (sPDL)**

**Effective Date: 7/1/2024**

Beginning 7/1/2024 all Managed Care plans and traditional Fee For Service will utilize this Preferred Drug List (sPDL) for the therapeutic classes listed below <b>ONLY</b> . Drug classes not listed below may be handled differently by the fee-for-service program and different managed care plans. Medications in non-managed (non-PDL) drug classes may require a clinical review for appropriate prescribing.
Trial and failure of TWO Preferred products (along with other potential criteria as indicated) in the specific categories below is required to receive a Non-Preferred product unless only one Preferred product is listed or it is otherwise indicated on the document. <b>**Trial and Failure of Preferred Product(s) does NOT apply in cases where a Non-Preferred product carries a specific indication and requiring a Preferred Product(s) would be clinically inappropriate.**</b> All new to market products in <b>the drug classes below</b> typically default to Non-Preferred until reviewed by the SCDHHS Pharmacy and Therapeutics Committee. Manufacturers' products (even in the categories below) that do not participate in the national Medicaid Drug Rebate Program are not covered.
To access Prior Authorization / Clinical Criteria guidelines for medication classes on the PDL <a href="#">CLICK HERE</a> .
All OTC products on this Preferred Drug List are only covered 1) with a prescription written by a participating provider 2) filled at a participating provider and 3) if the product is participating in the national Medicaid Drug Rebate Program.
<b>This list is for informational purposes only, should not be used for verification of coverage, and is subject to change without notice.</b>
