

**South Carolina Department of Health and Human Services
 Single Preferred Drug List (sPDL)**

Effective Date: 10/01/2025

All Managed Care plans and traditional Fee For Service utilize this single Preferred Drug List (sPDL) for the therapeutic classes listed below **ONLY**. Drug classes not listed below may be handled differently by the fee-for-service program and different managed care plans. Medications in non-managed (non-PDL) drug classes may require a clinical review for appropriate prescribing.

Documentation of Trial and Failure of TWO Preferred products (**along with other potential criteria as indicated**) in the specific categories below is required to receive a Non-Preferred product unless only one Preferred product is listed or it is otherwise indicated on the document. ****Documentation of Trial and Failure of Preferred Product(s) does NOT apply in cases where a Non-Preferred product carries a specific indication and requiring Preferred Product(s) would be clinically inappropriate.**** All new to market products in **the drug classes below** typically default to Non-Preferred until reviewed by the SCDHHS Pharmacy and Therapeutics Committee. Manufacturers' products (even in the categories below) that do not participate in the national Medicaid Drug Rebate Program are not covered.

To access Prior Authorization / Clinical Criteria guidelines for medication classes on the PDL [CLICK HERE](#).

All products on this Preferred Drug List are only covered 1) with a prescription written by a participating provider 2) filled at a participating provider and 3) if the product is participating in the national Medicaid Drug Rebate Program.

Beneficiaries must first try the generic of a PDL product before receiving the brand name equivalent, unless the brand name is Preferred or there is a clinical reason the generic product cannot be utilized.

This list is for informational purposes only, should not be used for verification of coverage, and is subject to change without notice.

To search for a specific class or specific product use the "CTRL+F" function

Color coded items that may be found below:

Recently approved changes to move currently listed products to a different side of the PDL (Preferred/Non-Preferred) or new categories recently added

New to market products that have been added since the last PDL posting

Items of importance or clarification / coverage updates since the last PDL posting
